

upCycling

Kick-Off Meeting in Reus, Spain
February 2022

Project Overview

UPCYCLING as a way to generate less waste and create value-added products in a creative way, brings together eight cross-sector institutions from seven culturally diverse countries (Iceland, Spain, Italy, Portugal, The Netherlands, Cyprus and Poland).

The project runs for 30 months from 01/02/2022 to 31/07/2024 funded by the Erasmus+ programme.

UPCYCLING focuses on promoting cross curricular collaboration, using innovative learning approaches to prepare learners, staff and youth workers towards becoming true agents of change (e.g. save resources, reduce energy use and waste, compensate carbon footprint emissions, opt for sustainable food and mobility choices, etc.).
